# 2025 Healthcare Outreach

7,379+ Outpatient Department Consultations Across Coastal Sindh

ERR deployed multi-specialty OPDs across six underserved coastal and rural locations delivering preventive care, emergency response, and free medication to communities with limited healthcare infrastructure.

Consultations

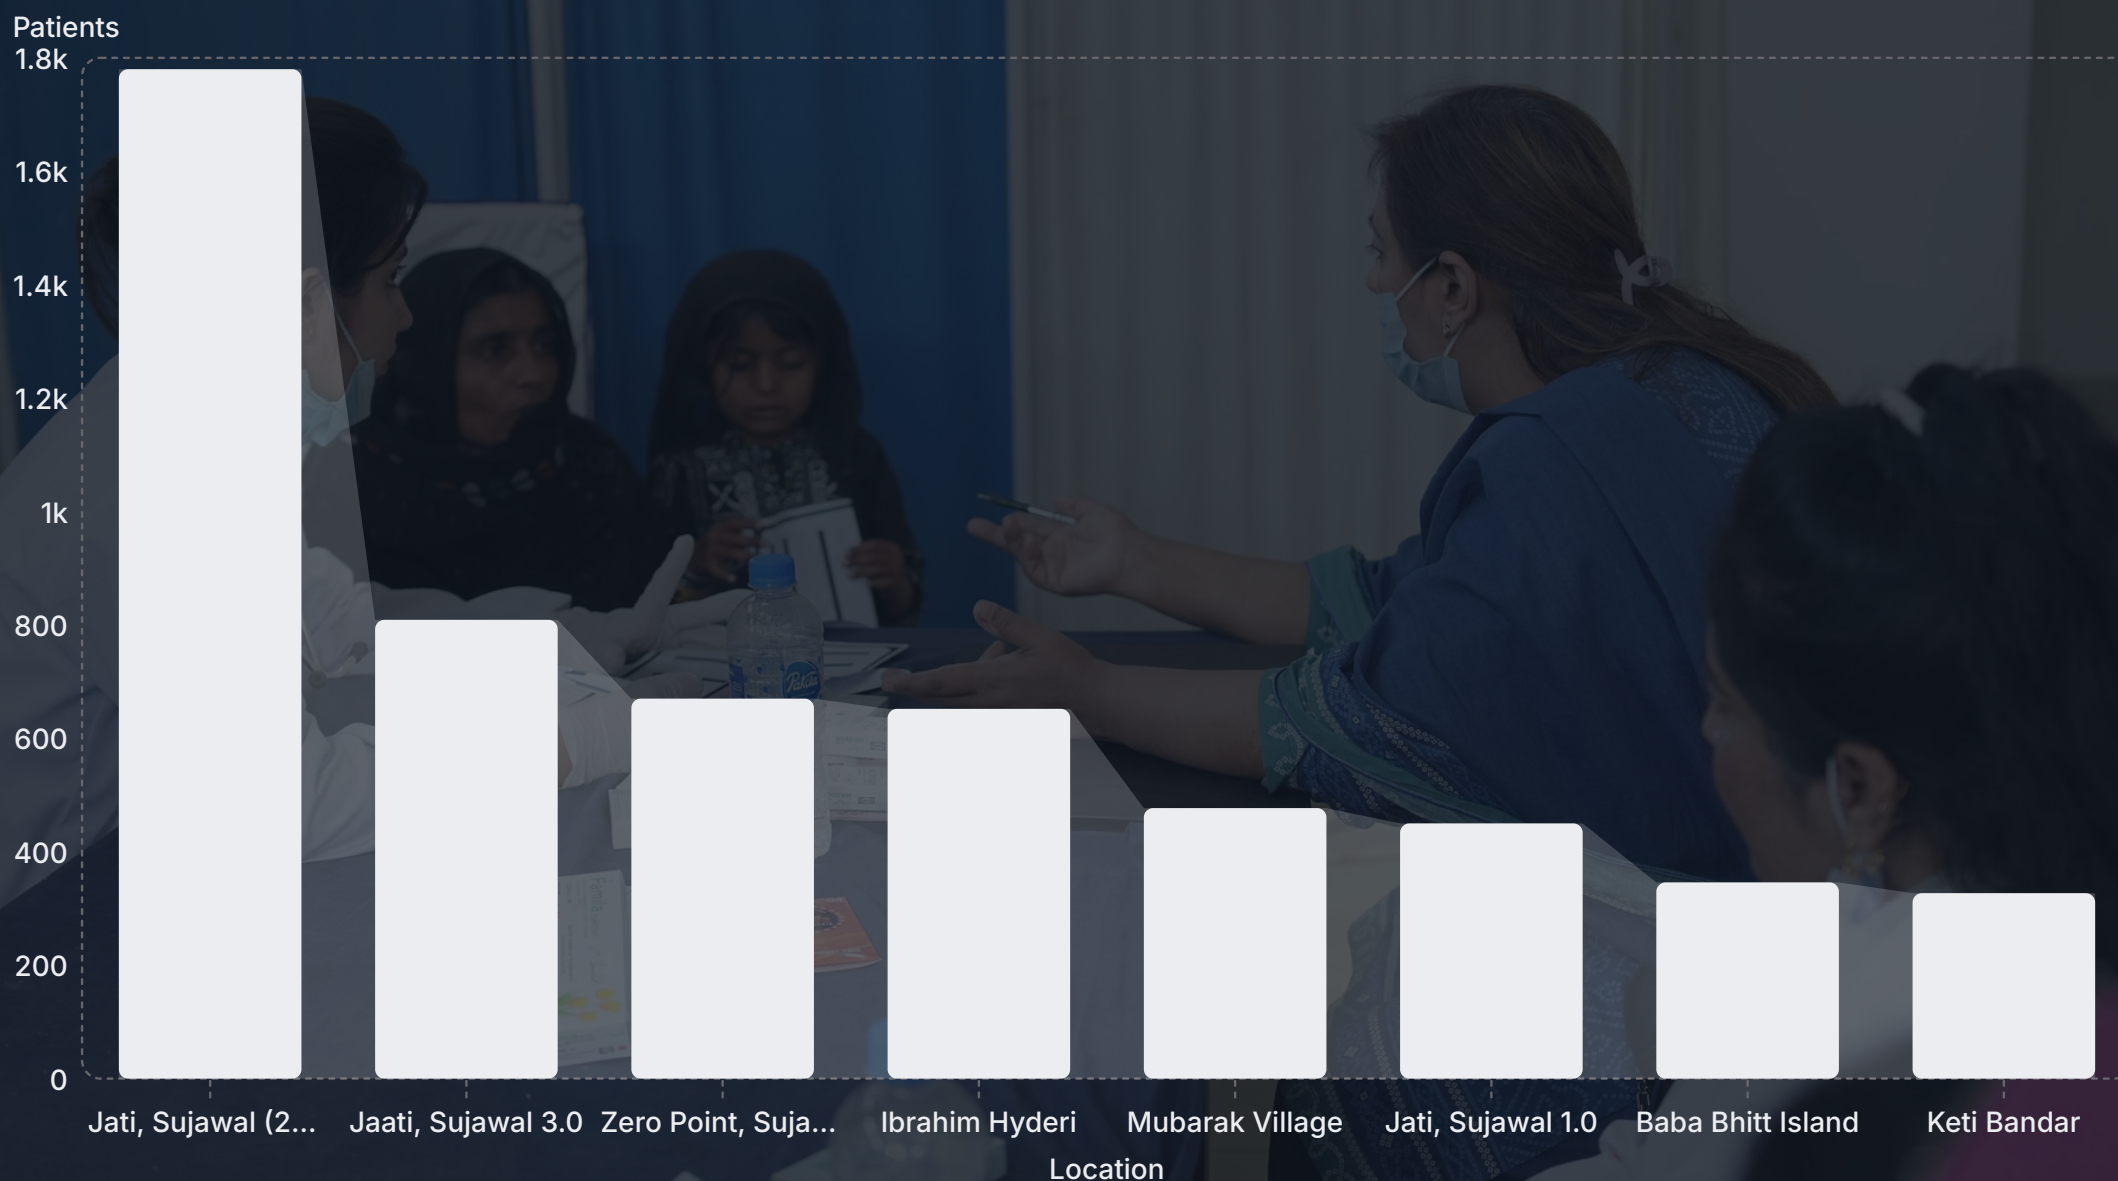

# 2025 Patient Outreach Data

## Coastal Communities

Reached via field missions

## Multi-Specialty OPDs

7+ specialty clinics per camp

# Disease Burden & Clinical Analysis

## Field-Collected Epidemiological Data

Real-world clinical data collected during ERR field outreach missions reveals a high burden of preventable and treatable conditions underscoring the urgent need for sustained healthcare access in underserved populations.

**738+ Dental Screenings**

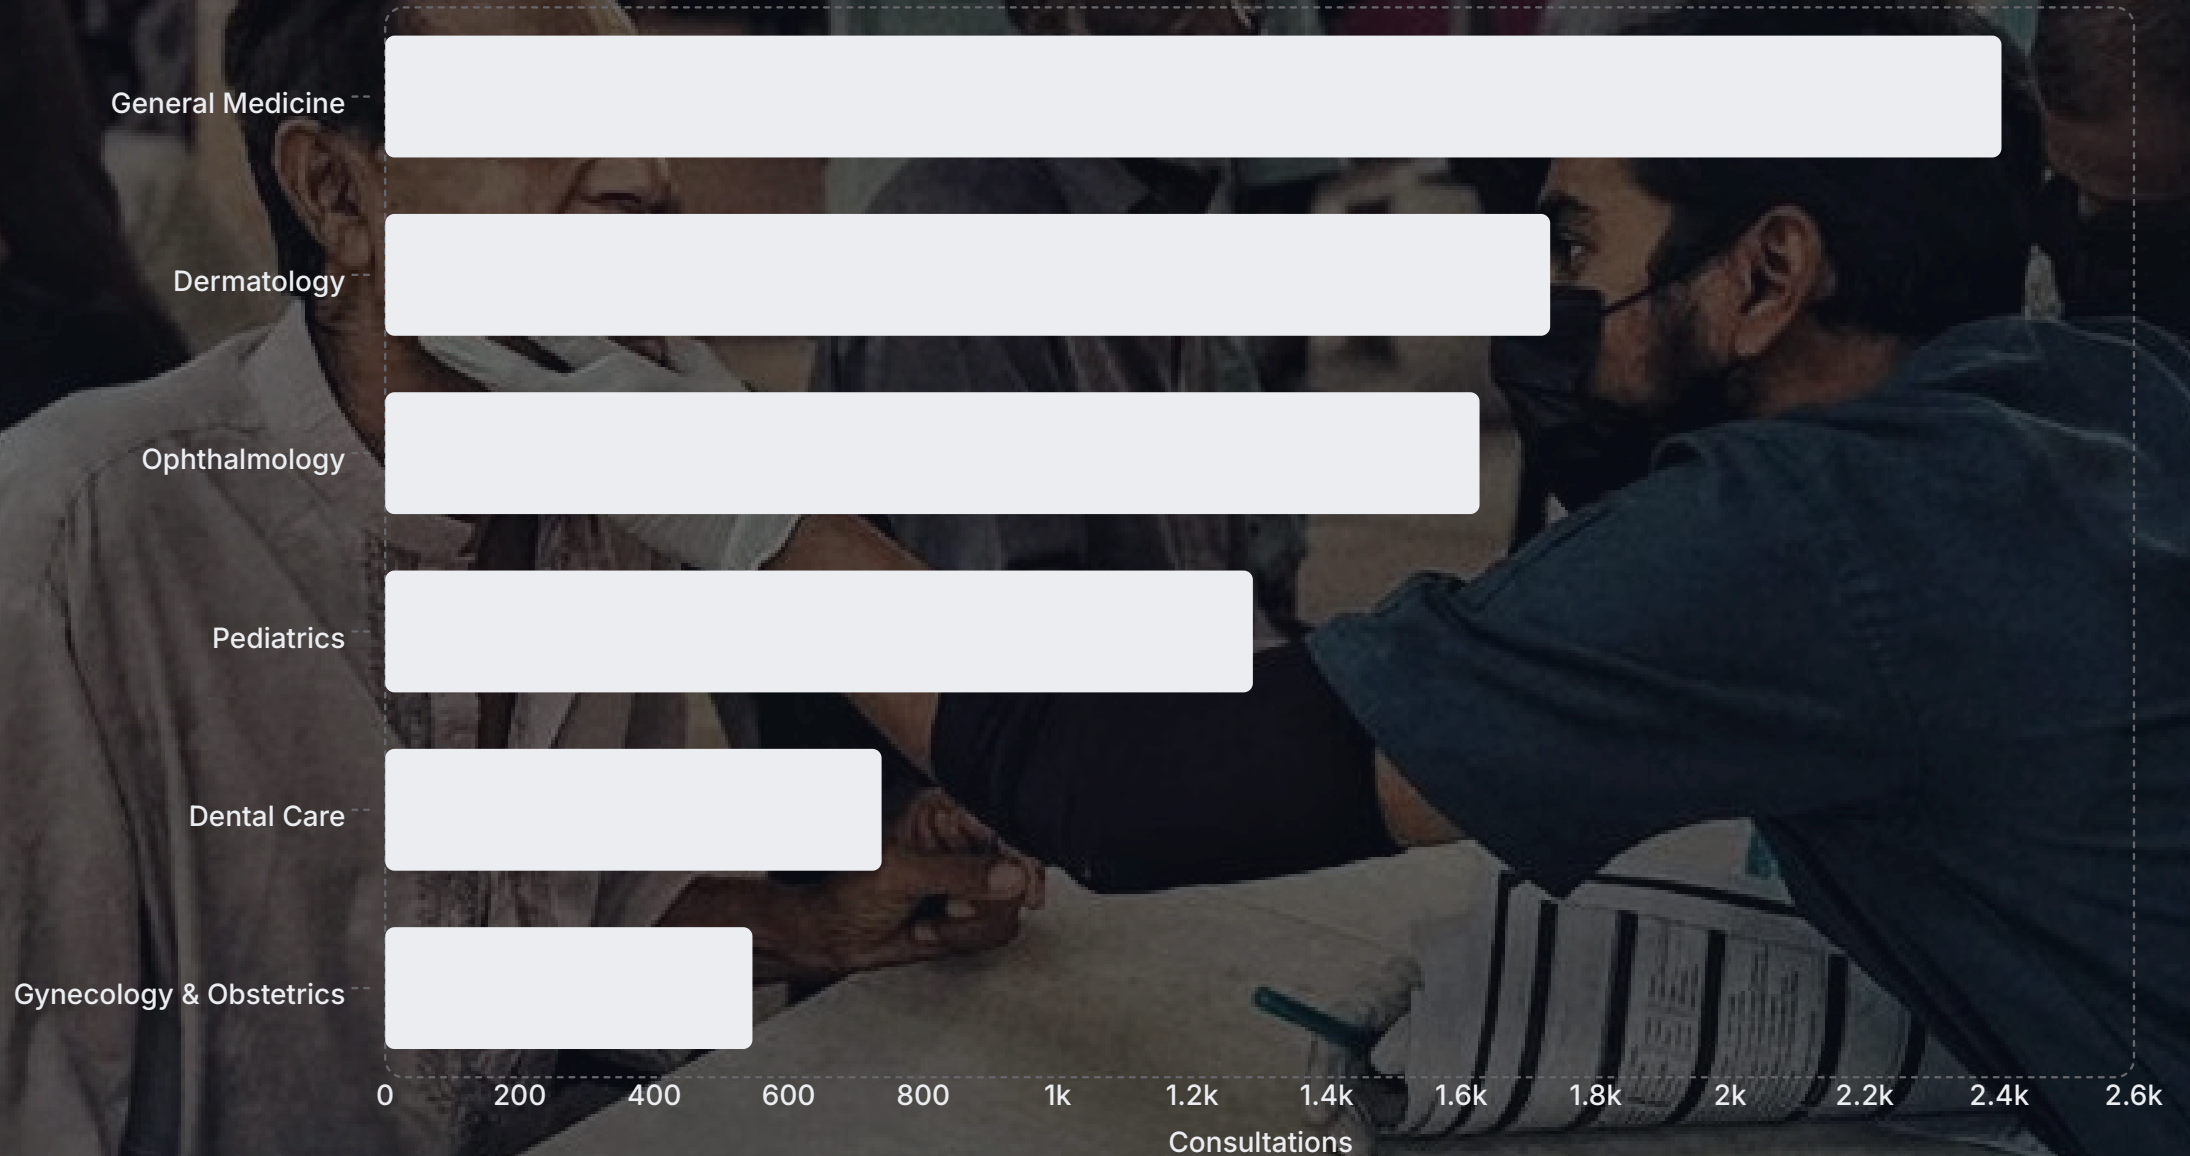

Portable unit deployment

**21 + Procedures**

Specialized Dental interventions

# Outpatient Department Breakdown

Specialty

The most frequent conditions addressed were general medicine, dermatology, and ophthalmology, reflecting common health needs in these regions. Notably, eye care included 70 surgeries and 430 pairs of glasses distributed.

# Integrated Community Healthcare Systems

## Preventive Healthcare

Reduces risk and feeds into integrated access.

## Emergency Preparedness

Ensures response readiness and links to other pillars.

## Mental Wellbeing

Supports overall health and connects across services.

## Public Health Research

Generates evidence that strengthens the system.

A unified system where prevention, response, wellbeing, and research reinforce one another to expand access to care.

# Building Sustainable Healthcare Access

## Medicines & Supplies

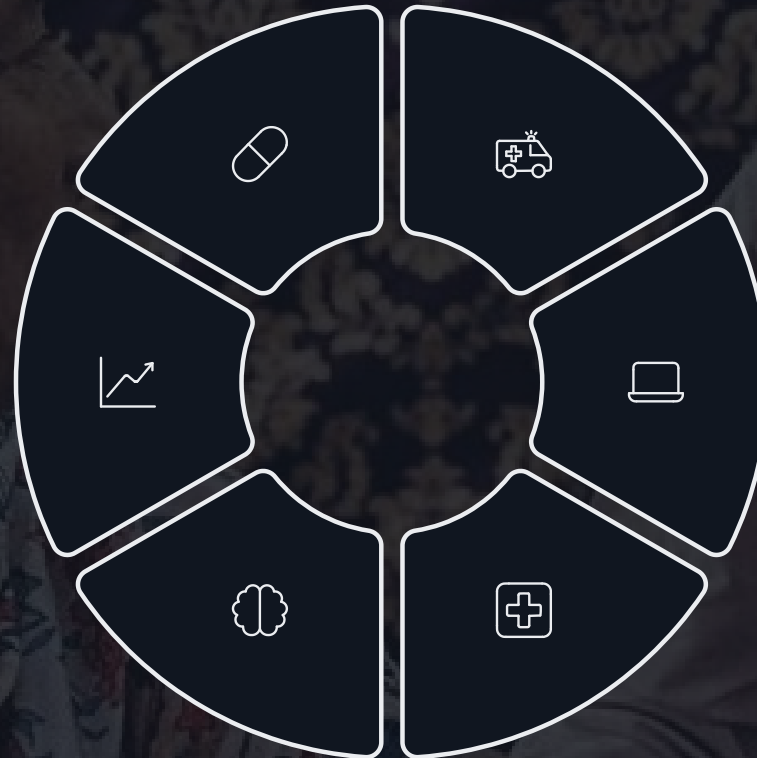

Expanded pharmaceutical access

## Public Health Research

Epidemiological data systems

## Mental Wellbeing Programs

Roshan Kal expansion

## Basic Life Support

Educating masses on BLS

## Telehealth Infrastructure

Remote consultation capability

## Surgical & Dental Equipment

Advanced clinical capacity

**Ebtekar Rah Roshan (ERR)** - continues expanding healthcare access through medical outreach, mental wellbeing programs, emergency preparedness, public health initiatives, and preventive care reaching underserved communities across Pakistan's coastal and rural regions.
